November 23, 2009

Senator Harry Reid
 US Senate
 Washington, DC

Dear Senator Reid:

I want to indicate my organization's support for the Senate healthcare bill and encourage the US Senate to pass this bill. In particular, we suggest that preventive measures be highlighted so that long term, our healthcare expense will be reduced. We realize the difficulties of passing this legislation. However, there are many people that like us see it as imperative that our country make this important change to be more competitive and have a healthy population.

Sincerely,

Beatriz M. Champagne, PhD
